## Recipe of the Week

### Easy Batter Fruit Cobbler

4 tablespoons butter  
 3/4 cup all-purpose flour  
 3/4 cup sugar  
 1 teaspoon baking powder  
 3/4 cup milk

1/4 teaspoon salt  
 2 cups of sliced fresh peaches or nectarines, or whole blueberries, strawberries, raspberries, blackberries or combination of fruits (or 12-ounce package of frozen berries)

Adjust oven rack to upper-middle position, and heat oven to 350 degrees.  
 Put butter in an 8 inch square or 9 inch round pan; set in oven to melt. When butter's melted, remove pan from oven.  
 Whisk flour, 3/4 cup of sugar, baking powder and salt in small bowl. Add milk; whisk to form a smooth batter. Pour batter into pan, then scatter fruit over batter. Sprinkle with remaining 1 T. of sugar.  
 Bake until batter browns and fruit bubbles, 50-60 minutes. Serve warm or room temp. with a dollop of whipped cream or a small scoop of vanilla ice cream, if desired.

## Everybody's Talking!

**Old styles:** A young man in Brighton, England, has eschewed modern dress in favor of the styles worn in the Regency era of the early 1800s. Luckily, Zack Pinsent is also a tailor by trade, so he can make many of his clothing items. Pinsent realized he loved the old style of dress when his family found a trunk containing his great-grandfather's clothes. He now makes his own clothing items, which range from riding jackets to waistcoats and three-piece gentleman's suits. Word about his talent got around, and now Pinsent takes orders from around the world for period clothing.

**Amazing cakes:** If the wedding cake is an important part of a couple's nuptials, the person to call is Renat Agzamov of Russia. A one-time boxer, this man has a love for making amazing creations. They can be as high as 13 feet and are elaborate, no matter the theme. Agzamov has made castles with balconies, ice mountains, and rose-covered Roman pillars. He was only seven when he made his first cake. In the early years, he worked at various bakeries to learn the secrets of the trade before striking out on his own. Today, thanks to social media, he fetches very large sums of money for his extraordinary cakes.

**Wood creations:** An artist from Spain has perfected a way to create extremely realistic animals by sculpting wood. Gerard Mas chisels forms out of logs, and then uses sandpaper to get the finish he wants. His sculptures include Siamese cats, bulldogs, Dobermans, German shepherds, and piglets. For darker fur tones, he uses a blowtorch to char the wood. The artist is also known for mixing 15th-century figures with modern elements, such as a woman wearing Renaissance garb who has a suntan line on her shoulders.

**Hot stuff:** People who love eating hot, spicy food might want to try (with caution!) a gummy bear dubbed Lil' Nitro. Made by Flamethrower Candy of St. Louis, Missouri (U.S.), this cute little candy bear must be eaten carefully, as it rates 9 million units on the Scoville hotness scale. Compare that to one of the hottest peppers out there, the Carolina Reaper, which has a rating of about 2.2 million units. The manufacturers use chili pepper extract to give the candy its high heat level. It's probably safe to assume that most people don't eat handfuls of this confection!
